Project Name	Inventory Management System for Retail
Maximum Marks	2 Marks

<b>I am (Customer)</b>	I am a retailer or a shop assistant in a retail shop
<b>I'm trying to</b>	Trying to check for available stock and valid stock
<b>But</b>	It takes manual work to check the number of products available and to check for the date of validity
<b>Because</b>	The products need to be checked manually
<b>Which makes me feel</b>	frustrated , anxious and stressed. It also increases work load
